MHB Secures Kasawari Gas Development Project from PETRONAS Carigali Sdn Bhd

Malaysia Marine and Heavy Engineering Holdings Berhad (MHB or Group) wishes to announce that its wholly owned subsidiary, Malaysia Marine and Heavy Engineering Sdn Bhd (MMHE) has been awarded a contract from PETRONAS Carigali Sdn Bhd (PCSB) to undertake the engineering, procurement, construction, installation and commissioning (EPCIC) works for the Kasawari Gas Development project.

The EPCIC contract includes the construction of 47,000 tonnes of Central Processing Platform (CPP), 8,600 tonnes of Wellhead Platform (WHP) and a Flare Structure, together with two bridges linking the CPP to the WHP and the Flare Structure. The contract also involves the transportation and installation of an 85-kilometres pipeline linking the Kasawari CPP to the existing E11R-A platform.

Wan Mashitah Wan Abdullah Sani, Managing Director and Chief Executive Officer of MHB, commented, *“This award is a representation of continued trust in our capability in providing offshore solutions and producing the desired results. Our aim is to deliver all projects efficiently, without compromising on safety and quality”*.

About MHB

Malaysia Marine and Heavy Engineering Holdings Berhad (MHB) is a globally trusted energy industry and marine solutions provider for a wide range of heavy engineering facilities and vessels.

MHB has more than 40-year track record of delivering integrated and complex solutions, including deepwater support services to international oil & gas clients. We are equally recognised for our global expertise in offshore conversion services and LNG vessel repair and dry docking. MHB also owns and operates a regional Centre of Excellence – a learning centre that produces technically expert workers for the industry.

Backed by an exceptional track record, a highly skilled workforce and world-class facilities, MHB is able to provide innovative solutions to meet the complex demands of the energy industry - safely, on time and within cost.

- Full range EPCIC services for heavy engineering construction
- Complete conversion works in one location
- Comprehensive marine repair, refurbishment, upgrading and life extension of vessels and rigs
